

### *Free Spirit*

Her spirit moves among the roses  
in a quiet, peaceful place  
and her footsteps, oh so quiet  
now that they have run their race.

The birds call sweetly to her  
on a pleasant morning breeze,  
and she listens with a glad ear  
for her soul has found release.

Unhampered by the painful flesh,  
unfettered by distress,  
her spirit moves so freely now  
her soul at last at rest.

In every gentle breeze,  
we feel her tender touch  
as she continues to commune  
with those she loved so much.
